Dear Sir:

Applicants hereby renew their petition to withdraw the holding of abandonment in this case on the basis that the Missing Requirements Notice forming the basis of the abandonment was not received.

In a communication dated October 2, 2000, the PCT Legal Examiner dismissed Applicant's earlier Petition without prejudice, finding the docket sheet previously submitted to be inadequate. It was stated that Applicant must provide a copy of the firm's general docket record, setting out all of the responses due for counsel's law firm on 26 June 1998, the date on which a response to the Notification of Missing Requirements was due. Such docket sheet is now provided with this Renewed Petition.

Attached please find the following documents:

- (1) Merchant & Gould's docket report showing all responses due for 26 June 1998;
- (2) copy of the Decision on Petition to Withdraw Holding of Abandonment dated 2 October 2000, dismissing Applicant's earlier Petition without prejudice; and

(3) copy of Applicant's prior Petition, including Declaration of the firm's docketing supervisor.

It is believed that the Petition and supporting documents are now sufficient to establish non-receipt of the Missing Requirements Notice. In consideration of these submissions, it is respectfully requested that the holding of abandonment be withdrawn.

The Petition fee under 37 CFR 1.17(h) was submitted with the original Petition.

Please charge any additional fees or credit overpayment to Merchant & Gould deposit account No. 13-2725.

Respectfully submitted,

DECISION ON
PETITION TO WITHDRAW
HOLDING OF ABANDONMENT

This decision is issued in response to the "Petition To Withdraw Holding Of Abandonment (Missing Requirements Notice Not Received)" filed on 01 August 2000. No petition fee is required.

BACKGROUND

On 19 July 1996, applicants filed international application PCT/US96/12067 which claimed a priority date of 21 July 1995 and which designated the United States.

On 20 February 1997, a Demand was filed with the International Preliminary Examining Authority electing the United States. The election was made prior to the expiration of nineteen months from the priority date. As a result, the deadline for submission of a copy of the international application (unless previously communicated by the International Bureau) and payment of the basic national fee was extended to expire thirty months from the priority date, i.e., 21 January 1998.

On 21 January 1998, applicants filed a transmittal letter for entry into the national stage in the United States accompanied by a check in the amount of \$1,372 (\$1,070 as the basic national fee, \$220 for inclusion of ten extra claims, and \$82 for inclusion of one extra independent claim). The transmittal letter noted that a copy of the international application was not required because the international application was filed in the United States Receiving Office.

On 26 May 1998, the United States Designated/Elected Office (DO/EO/US) mailed a Notification Of Missing Requirements Under 35 U.S.C. 371 (Form PCT/DO/EO/905) indicating that an oath or declaration in compliance with 37 CFR 1.497 and a surcharge for providing the oath or declaration later than thirty months from the priority date were required. The Notification also informed applicants that the failure to submit these materials within one month of the date of the Notification would result in abandonment of the application.

On 22 May 2000, the DO/EO/US mailed a Notification Of Abandonment (Form PCT/DO/EO/909) indicating that the application was abandoned with respect to the United States for failure to respond to the Notification Of Missing Requirements.

On 01 August 2000, applicants filed the "Petition To Withdraw Holding Of Abandonment (Missing Requirements Notice Not Received)" considered herein. In this petition, applicants assert that the abandonment should be withdrawn because applicants never received the Notification Of Missing Requirements mailed on 26 May 1998.

DISCUSSION

In the present petition, applicants argue that the holding of abandonment should be withdrawn because applicant never received the Notification Of Missing Requirements mailed on 26 May 1998. Section 711.03(c)II of the MPEP sets forth the requirements for such a petition:

The showing required to establish nonreceipt of an Office communication must include a statement from the practitioner stating that the Office communication was not received by the practitioner and attesting to the fact that a search of the file jacket and docket records indicates that the Office communication was not received. A copy of the docket record where the nonreceived Office communication would have been entered had it been received and docketed must be attached to and referenced in practitioner's statement.

Here, the petition contains the required statements from the practitioner that the Notification Of Missing Requirements was not received and that a search of the file jacket and docket records indicates that the Notification Of Missing Requirements was not received.

Regarding the docket records requirement, applicants have attached copies of the docket sheet for this particular file and a declaration from counsel's docketing supervisor regarding the firm's docketing procedures. However, these docket records are not sufficient. They apply only to this particular case, and therefore do not provide evidence as to whether the Notification Of Missing Requirements was received but simply docketed under an incorrect case. Applicant must provide a copy of the general docket record which sets out all the responses due for

counsel's law firm's entire office on 26 June 1998, the date on which a response to the Notification Of Missing Requirements was due. If such a general docket is not maintained by counsel's office, counsel must submit a statement expressly stating that this is the case.

Because the docket sheet submitted by applicant is not adequate, the petition is not grantable in its current form.

CONCLUSION

Applicant's Petition to Withdraw Holding of Abandonment is **DISMISSED** without prejudice.

If reconsideration on the merits of this petition is desired, a proper response must be filed within **TWO (2) MONTHS** from the mail date of this decision. Any reconsideration request should include a cover letter entitled "Renewed Petition to Withdraw Holding of Abandonment." Extensions of time may be obtained under 37 CFR 1.136(a)

Please direct further correspondence with respect to this matter to the Assistant Commissioner for Patents, Box PCT, Washington, DC 20231, and address the contents of the letter to attention of the PCT Legal Office.

PETITION TO WITHDRAW HOLDING OF ABANDONMENT
MISSING REQUIREMENTS NOTICE NOT RECEIVED

Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

Applicants hereby petition to withdraw the holding of abandonment in this case, on the basis that the Missing Requirements Notice forming the basis of the abandonment was not received.

Applicants state that a search of the file and the docket records in Merchant & Gould indicates that this Missing Requirements Notice was not received.

Attached is a copy of the docket record where the Missing Requirements Notice would have been entered had it been received and docketed.

A Declaration of Jodi Gandel-Klein, the Docketing Supervisor is also attached.

The Declaration by Ms. Gandel-Klein outlines the firm's handling of incoming correspondence, including Patent and Trademark Missing Requirements Notices. As noted in the Declaration, the correspondence is brought to the firm, date stamped and sorted between Patent and Trademark Office correspondence, other correspondence possibly requiring docketing, and non-docketing correspondence. The Declaration also outlines the firm's procedures for docketing actions from the Patent and Trademark Office. A member of the

docketing department collects the correspondence requiring docketing from the mailroom, and delivers the Patent and Trademark Office correspondence to the appropriate docketing personnel. That person then reviews the correspondence and enters the appropriate information in the firm's automated docketing system. The correspondence is then delivered to the responsible attorney for appropriate action.

Ms. Gandel-Klein confirms that there is no evidence in the firm's docketing records to indicate that the Missing Requirements Notice in this application was ever received. Ms. Gandel-Klein concludes that, in view of this, she believes that the Missing Requirements Notice was never received for docketing.

It is believed that this is sufficient to establish the non-receipt of the Missing Requirements Notice. More particularly, if the Missing Requirements Notice had been received, it would have been entered into the computerized docket system. However, even if for some reason the information was entered into the docket system under the wrong file number, the Missing Requirements Notice would still would have been associated with the file for this application since the attorney docket number on the Missing Requirements Notice is correct. Therefore, the absence of the Missing Requirements Notice from the attorney's file substantiates Ms. Gandel-Klein's conclusion that the Missing Requirements Notice was not received. In consideration of these submissions, it is respectfully requested that the holding of abandonment be withdrawn.

The petition fee under 37 C.F.R. § 1.17(h) in the amount of \$130.00 is enclosed.

Please charge any additional fees or credit overpayment to Merchant & Gould Deposit Account No. 13-2725.

**DECLARATION OF JODI GANDEL-KLEIN IN SUPPORT OF PETITION
TO WITHDRAW HOLDING OF ABANDONMENT**

Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

I, Jodi Gandel-Klein, declare and state:

1. I am the Docketing Supervisor for Merchant & Gould, the law firm prosecuting the above-referenced patent application. I have been Docketing Supervisor since November 17, 1997.
2. I am responsible for overseeing all incoming Patent and Trademark Office communications and oversee those responsible for seeing that these communications are properly docketed and entered into our computerized docketing system.
3. Incoming mail received by the firm is sorted into correspondence that may require docketing and correspondence that does not require docketing. The correspondence that may require docketing is further distinguished between correspondence from the Patent and Trademark Office and other correspondence. After the incoming mail has been date stamped to show date of receipt, a member of the firm's docketing department retrieves the

mail that may require docketing and brings it to the docketing department. The appropriate personnel then docket the correspondence.

4. If such a Missing Requirements Notice had been received, the communication would have been docketed by entering into the computerized docket system the date the Missing Requirements Notice was mailed. The computerized docket system would then calculate the due dates for response to the Missing Requirements Notice up to the six month statutory deadline. The first page of the Missing Requirements Notice would then be initialed by the person docketing the Missing Requirements Notice to indicate that it had been docketed and forwarded to the attorney responsible for the patent application for further action, e.g., reporting to the client, etc.

5. I have reviewed the records in the firm's docket system and find no entry for the Missing Requirements Notice for this application, nor any other evidence that would suggest that the Missing Requirements Notice actually was received by the firm.

6. In view of the above, I believe that the Missing Requirements Notice for this application was never delivered to the docketing department for docketing.

7. I declare that all statements made herein of my own knowledge are true and that all statements made on information belief are believed to be true; and further that these statements were made with knowledge that willful, false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18, of the United States Code and that such willful, false statements may jeopardize the validity of the application or document or any registration resulting therefrom.
